Drug Disposition Business Coordinator for Insulins - Assignment No.: P3-081

THE COMPANY

Top-ten pharma company.

THE POSITION

The Business Coordinator leads strategy development and the successful completion of major programs with significant issues. The Business Coordinator is able to articulate concepts of cost versus risk trade-offs and she/he independently prioritizes objectives and approaches to critical assignments. Principal duties and responsibilities:

- Provide dedicated expertise to the BD Diabetes in metabolism and pharmacokinetics of insulins contributing to designing programs, issue resolution, innovation, and performance
- Ensuring that strategies evolve with changes in regulatory policy
- Multidisciplinary project teams and its members and contribution to meetings of internal decision making bodies and support of regulatory agency interactions
- SCP Clinical Science and Operations for design and conduct of clinical studies

THE CANDIDATE

Due to the scope and variety of the job it will be necessary for a high degree of multi-tasking and an incisive approach to decision making to ensure the right priorities are set for the business and the appropriate resources allocated across the matrix.

Qualifications:

- PhD/PharmD/DVM/MD (or equivalent experience) plus minimum of 12 years related experience, preferably as a head of a Drug Metabolism/Pharmacokinetics department.
- Current knowledge of the legal and regulatory requirements as they impact upon metabolism and pharmacokinetic aspects of international preclinical and clinical drug development programs.
- Demonstrated ability to interact (acting as primary representative for discipline without supervision) with regulatory agencies and senior management in a variety of critical forums such as FDA Advisory Committee Meetings, etc..
- Ability to influence strategy development in areas outside of the metabolism and pharmacokinetic area.
- Experience in multiple therapeutic areas desired.
- Demonstrated experience in the field of insulin analogue pharmacokinetics is mandatory.
- Confident and self-assured.
- Fluency in written and spoken English.
- Cultural versatility and adaptability.
- Self-starter with a “hands-on” approach that is capable of managing a diverse range of duties and a heavy workload.

TERMS AND CONDITIONS

- An attractive package commensurate with experience.
- Excellent medical and social welfare benefits.
- Nice location with high quality of life and reasonable cost of living.
- This is an excellent career opportunity to join the company at a significant stage of its evolution and offers prospects limited only by the success of the company overall.
